

COURSE PRESENTER

Kenneth W. Aschheim, D.D.S.

Dr. Kenneth Aschheim has more than 30 years of private practice experience in all aspects of cosmetic and restorative dentistry. He has lectured and conducted workshops throughout the world and has been a contributor to the dental literature. In 2015, the third edition of his textbook, *Esthetic Dentistry: A Clinical Approach to Techniques and Materials* (Elsevier), which include the latest esthetic and advanced technologies, was published. He currently serves as Associate Clinical Professor in the Department of Dentistry at the Mount Sinai Medical Center and an Adjunct Associate Clinical Professor at the New York University College of Dentistry's Advanced Programs in Esthetic Dentistry for International Dentists.

Following the September 11 attack of the World Trade Center, Dr. Aschheim became a dental consultant to the Office of the Chief Medical Examiner (OCME) in New York City. As an experienced programmer and forensic odontologist, he was the chief design consultant and project manager for the development of the Unified Victim Identification Software Dental Identification Module, a dental identification program. He has lectured worldwide on the topic and, in 2014, was appointed assistant chair to the FBI's Scientific Working Group for Disaster Victim identification. He has also consulted throughout the world to numerous government agencies as well as the National Institute of Science and Technology (NIST) where, in 2015, he became a member of the Crime Scene and Death Investigation Subcommittee of the Organization of Scientific Area Committees for Forensic Science. Dr. Aschheim has also served as a consultant to numerous dental companies on various dental and computer technologies. He has been a member of the NYSDA Information Technology Committee since 2013.
